## REGISTRARS BEGIN WORK IN MORGAN MONDAY MORNING; BOARD APPOINTED

L. E. McGregor, of Decatur, Chairman; Bean and Edwards Members.

## FIRST MEETING NEW BOARD ON SATURDAY

They Will Map Out Schedule to Take Them to Each Precinct.

Registrations books in Morgan County will be opened Monday to permit the women to qualify themselves to vote in the presidential and senatorial elections in November. This assurance was given today, following the appointment late yesterday of the board of registration for the county by Governor Kilby. The board is composed of: L. E. McGregor, Decatur, chairman; S. A. Edwards, Hartselle, W. S. Bean, Falkville.

According to information received here today the new board is in the nature of a special organization for the registration of women and will not hold office after November 2, when the regular Register, R. N. McCulloch, again will assume office.

The first meeting of the new board will be held Saturday when plans will be mapped out for visiting every precinct in the county, as required by the law passed by the recent special session of the legislature.

The law provides that after having visited other precincts, the board shall meet at the county site. That feature is expected to result in the registrars opening their campaign in one of the rural sections of the county and after making a "swing around the circle," returning here the latter part of this month. The books will be open here several days.

Law Mailed Out  
Speaker S. A. Lynne announced today he had received a wire from the secretary of state informing him that copies of the law have been forwarded to Morgan County.

Registration blanks, ordered printed following the passage of the suffrage bills by the legislature, will be placed in the mails Saturday, the telegram stated.

## TRIO OF MEMBERS MAKES PROGRAMS FOR G. C. BANQUETS

A committee to provide for the entertainment features for the bi-monthly banquet meetings has been appointed by the officers of the Albany Chamber of Commerce. It will be the duty of this committee to arrange all the entertainment features. The personnel of the committee assures those attending these meetings that they will be well entertained. The committee is composed of the following: Thos. A. Bowles, chairman, B. B. Pickens and F. A. Bloodworth. The committee will meet at an early date to prepare for the next meeting which is scheduled for Tuesday, October 19.

These banquet meetings are proving very popular among the membership of the Chamber of Commerce, in fact they are proving more popular than had been anticipated, and the officials express themselves as being much pleased with the future outlook, as the Chamber will be able to accomplish greater results as the result of more frequent meetings.

A full statement of the Albany census controversy will be published in a few days by Ex-Mayor A. C. Dillehay and C. P. McDaniel, Secretary of the Albany Chamber of Commerce.

**Convicted "Reds"  
Must Serve Time**  
(International News Service)  
CHICAGO, Oct. 8.—Revolutionists plotting the overthrow of the government in the United States, must hereafter serve a term in the penitentiary before they are deported according to a new departure in the government's mode of operation against alien radicals announced today by the Federal agent.

## Modern Robber Has Chloroform To Quiet Chicks

(International News Service)  
BIRMINGHAM, Oct. 8.—When the police investigated the robbing of a hen roost in North Birmingham today they discovered the midnight robber had used chloroform to keep the chickens from cackling. The breath of an aged rooster, still dazed from the fumes of the drugs, revealed to the police the new wrinkle of local chicken thieves.

## CALLAHAN NAMED CITY ATTORNEY BY DECATUR COUNCIL

W. W. Callahan last night was elected city attorney of Decatur by the council in regular session, defeating S. A. Lynne by a vote of 4 to 2. The race was one of the liveliest in recent years, thirteen ballots having been taken, without breaking the 3-3 tie, at the initial meeting of the council. Several additional ballots were taken last night, before the selection was made.

With the exception of the election of a city attorney only routine business was transacted at last night's meeting. The reports of officers were read and approved and the monthly bills were audited.

## COMMITTEE PLANS ENTERTAINMENT OF BAPTIST DELEGATES

The entertainment committee for the Baptist State Convention, which will convene with the Decatur Baptist Church on November 16, will make a canvas next Sunday afternoon to secure homes for the delegates. It is expected that from 300 to 500 may attend and every home will be expected to entertain some of the delegates.

In case any one is missed in the canvas kindly phone W. W. Fussell at the Tennessee Valley Bank, Decatur 44 and state the number of delegates you will take.

## HEAVY DAMAGE IS DONE BY FLAMES

BARN, USED AS STOREROOM, BY  
DIXIE CONSTRUCTION CO.  
BURNED

Heavy damage was done by fire which late yesterday afternoon partially destroyed a barn, owned by Pettet and Thompson, and used by the Dixie Construction company as a storeroom. The barn is located on Grant street in the rear of the Johnson building. The barn was of metal construction, this fact probably preventing its entire loss.

The Dixie company had a large quantity of wire and other materials stored in the building. The damage to the material was heavy.

S. M. Thompson, one of the owners of the building, stated the damage to the building probably would not exceed \$500.

## Memorialize Kilby to Permit Meetings in The "Strike Zone"

A meeting of local union men will be held Sunday afternoon at 2:30 o'clock in the Masonic theatre with the object of memorializing Governor Kilby to permit free assemblage of miners in the Birmingham strike district, provided these meetings will be free of disorder.

## WEARING THEIR GAY RED FEZZES, LOCAL SHRINERS ENJOYING A BARBECUE FRIDAY

"Nothing But Fun" is the General Order for Day, Bowles Announces.

## GROWTH OF CLUB VERY RAPID IN PAST YEAR

Plan Good Showing When Birmingham Nobles Visit Here November 10.

Wearing their gay red fezzes, members of the Tennessee Valley Shrine club will gather in the local oasis this afternoon for a barbecue on Riverview avenue, near the old nail factory site.

"Nothing but fun" is the heading of the general orders for the day and no business will be transacted, President Bowles announced this morning.

The 'cue will be attended by a number of the club members from Athens, Hartselle and other neighboring communities, who will arrive here on the afternoon trains. The barbecue will begin at 3:30 o'clock and the program will carry the festivities well on toward night.

A music and a stunt committee was busily engaged this morning in arranging features of the entertainment program. They are reported to have been very successful.

The barbecue today takes the place of a boat excursion, planned for the summer, but which was called off following the seizure of the Steamer Troxell.

The barbecue will be in the nature of a "Ladies Day," the wives, sweethearts and mothers of the Nobles accompanying them to the oasis.

The growth of the Tennessee Valley Shrine club during the past year has been remarkably rapid and the club is planning to make a great showing when the several hundred Nobles from Birmingham pass through here November 10, enroute to Sheffield where a class of candidates will be carried across the hot sands.

The Magic City Nobles will be guests of the local club for lunch in the rooms of the Albany chamber of commerce.

## GOVERNOR URGES SHERIFF TO HALT WARNINGS TO GIN

ATLANTA, Oct. 8.—Aroused at reports from a number of points in Georgia of notices posted on gins, threatening to burn them if cotton is ginned until the price of cotton reaches 40 cents a pound, Governor Dorsey has written Sheriff Garrett, of Carroll county, urging him to apprehend those guilty of issuing the warning.

"If legitimate business can be interfered with in this way, then Bolshevism has already arrived," declared Governor Dorsey.

## REWARD OFFERED

(International News Service)  
HARTWELL, Ga., Oct. 8.—Farmers and ginners of Hart county held a meeting today to consider the warnings that have been posted on the various gins in the county. A reward of \$2,000 has been paid in to be given for the arrest, with evidence to convict, anyone attempting to burn or otherwise molest the ginners.

## MRS. T. G. MORROW DIED LAST NIGHT

Mrs. T. G. Morrow Sr., after an illness of several months, died last night after a life spent in gentleness and kindness at her residence on Lafayette street. She had resided here about thirty years and had a wide circle of friends who will be deeply pained at her death.

## 'Master Minds' in Booze Traffic Thought Caught

(International News Service)  
LOUISVILLE, Ky., Oct. 8.—With the arrest of Erwin Bartelstone, of New York, and David C. Augustus, head of a large transfer company, Federal prohibition officers today were busy following every available lead in what they believe is a plot to secure virtually all Kentucky whiskey held in the state without permits for medical use at \$32 a case and reselling it at a profit to amount to millions at customary bootlegging prices.

Augustus is charged with having in his possession 400 cases of whiskey and unlawfully transporting it. Bartelstone confessed, according to Federal officers, to having purchased 60,000 cases of whiskey in Kentucky.

## NEW MASONIC CLUB IS ORGANIZED HERE; OFFICERS ELECTED

Another new organization, known as the "Tennessee Valley Scottish Rites Club" held its first meeting on the evening of October 6th and elected the following officers: President C. C. Robertson; First Vice President C. V. Dupont, Second Vice President S. B. Burr; Secretary and Treasurer D. D. Burleson.

The standing committees announced were as follows: Entertainment and Transportation W. E. Crawford; Masonic Lectures and Public Education Fred Wall; Scottish Rite Membership T. A. Bowles, Thomas Hodson and J. P. Brock; Annual Scottish Rite Feasts F. S. Hunt, C. A. Hitch and C. E. Vantrees; Scottish Rite Funerals W. R. McCluskey, W. A. Bibb, and J. C. Holesapple; Degree T. H. Matlocks, S. B. Burr, and Lanier Royer.

According to W. R. McCluskey, who is one of the Masonic lecturers for Morgan county, the object of the new club will be the full establishment of the principles of Masonry among its membership; the cultivation of brotherhood, and the application of these principles to practical life.

## COAL PRODUCTION STILL NOT NORMAL

TOTAL OF 285,905 TONS MINED  
DURING WEEK, REPORT  
ANNOUNCES

(International News Service)  
BIRMINGHAM, Oct. 8.—Official coal production figures for the Alabama district for the week ending October 2 were announced today by the Federal statistician at 285,905 tons, which is said to be about 50,000 tons less than the normal production. It is estimated there are still about 15,000 miners on strike in this district, and the zone is under martial law, with 8 companies of national guardsmen on duty.

No disorders have been reported for several weeks.

## MRS. T. G. MORROW DIED LAST NIGHT

Mrs. T. G. Morrow Sr., after an illness of several months, died last night after a life spent in gentleness and kindness at her residence on Lafayette street. She had resided here about thirty years and had a wide circle of friends who will be deeply pained at her death.

Mrs. Morrow was a faithful member of the Presbyterian church. Rev. L. F. Goodwin will officiate at the last sad rites which will be conducted at her late residence on Saturday morning at 10:30, interment following here. The following sons and daughters survive her: Eugene Morrow, Frank Morrow of Chicago, Mert Morrow of Anniston, Dr. T. G. Morrow, Mrs. T. E. Baker, Mrs. Garner Pride, Miss Nona Morrow, Mrs. Woody Paramore, of Albany, Ga., Mrs. Geo. Whitworth, Lowell, Mass.

## SOUTH'S GREATEST POULTRY SHOW TO OPEN NOVEMBER 1, IN MALONE GARAGE

Many Inquiries Indicate Wide-spread Interest in the Local Exhibition.

## MANY SILVER CUPS ARE OFFERED THE WINNERS

In Addition Local Business People Will Also Award Valuable Prizes.

One of the South's biggest poultry exhibitions will begin here November 1, when the doors are thrown open for the second annual show of the Tennessee Valley Poultry Association.

As was the case last year, combined with the poultry exhibition there will be held a Chrysanthemum and Fern show. Both shows will be held in the Malone garage.

J. W. Zimmerer, one of the best known poultry judges in America, will be judge of the local show. Officials of the Tennessee Valley Poultry Association are: W. T. Lowe, president; J. B. Moyer, vice president; H. N. Binford, secretary; W. F. Rauchenberger, treasurer; Mrs. Florence Forbes, superintendent.

The executive committee is composed of: Mrs. Florence Forbes, C. H. Eyster, Mrs. P. P. Gilchrist, C. L. Saunders, Mrs. W. R. Smith, J. W. Carl, O. B. Cartwright.

## Rules Are Given

The show will be held under the rules of the American Poultry Association and a number of handsome prizes have been offered for the winners. The number of inquiries made, regarding entries, indicates a widespread interest in the local exhibition. Exhibits will be sent here from all sections of the South.

The premiums of the Association are open to the competition of the world. Entries, however, must be made on blanks furnished by the secretary and all entry fees must be paid at the time entry is made. Entries in all departments will close on Saturday, October 30 and the garage showrooms will be open all day Saturday for reception of entries.

In addition to a number of valuable prizes offered by local business houses, several cups will be awarded winners as follows:

Silver cup for best cockrel in the show, given by the Kiwanis club.

Silver cup for the best cock in the show, given by Mayor James A. Nelson.

Silver cup for the best hen in the show, given by the Tennessee Valley Poultry Association.

Silver cup for the best pen in the show, given by Congressman Edward B. Almon.

Silver cup for the best pullet in the show, given by the Tennessee Valley Poultry Association.

A number of cash prizes also will be awarded.

## SUPREME COURT CONTROL ONE OF STAKES SAYS COX

(International News Service)  
PADUCAH, Ky., Oct. 8.—Absolute control of the supreme court of the United States, of Congress and the presidency is the stake for which the senatorial oligarchy is playing Governor James M. Cox charged in his speech here today.

More supreme court judges are likely to be appointed during the next presidential administration, Gov. Cox pointed out and insisted that "it would naturally follow" that Senator Harding, if elected, "would appoint reactionary members," thus binding the country to reaction "for the better part of a generation."

"It is a simple matter for the people to make a change in the executive and legislative branches of the government," the governor continued, "but not in the judicial. As I see it, this is the real danger of a reactionary victory, next to the scrapping of the league of nations."

## Soldier Seeking News of Brother Last Seen Here

James R. L. Miller, an ex-soldier, now stationed at the U. S. P. H. S. Hospital No. 49, at Philadelphia, is seeking news of his brother, James Ozo Miller, last seen here in January, 1920. He was last heard from at Trinity in June of this year, the soldier's letter says.

Miller requests that any information regarding his brother's whereabouts be communicated to him at the Philadelphia hospital.

## WOMAN RESPONDS TO APPEAL TO AID DEMOCRATIC FUND

The first contribution from a woman to aid the Democratic campaign fund was received today by The Daily when Mrs. T. Blanche Cartwright forwarded her check for \$2 to be transmitted to Assistant Treasurer Joe Sparks. Other contributions today boosted the total received.

Contributions listed to date follow:

E. H. Gray	\$ 2.50
W. A. Lewis	1.00
Tom Huddleston	2.00
L. S. Robinson, Jr.	2.00
Cash	1.00
T. J. Rainey	2.50
E. C. Payne	5.00
J. P. Couch	2.00

Chas. E. Layman	2.00
Mrs. T. Blanche Cartwright	2.00
B. Crawford & Sons Co.	5.00

## LEAGUE PARAMOUNT ISSUE IN THE WEST, HARDING DISCOVERS

(International News Service)  
OMAHA, Neb., Oct. 8.—Well satisfied that Iowa and Nebraska are safely Republican by big majorities, Senator Warren G. Harding swung southward today into the closely contested state of Missouri. Senator Harding has found in this brief invasion of the Middle West that the League of Nations is the paramount issue and at every stop, whether it has been for a half a day or ten minutes, his audiences have been loath to let him go, without some declaration on the league issue.

## Felix Diaz Told To Leave Mexico

(International News Service)  
MEXICO CITY, Oct. 8.—Col. Felix Diaz, nephew of former president Diaz, who is a prisoner in the hands of General Sanchez's Federal troops at Vera Cruz, has been ordered to leave Mexico within 24 hours. Diaz says he will not leave Mexico unless he is taken out by force.

## Anticipate Rates With Much Interest

Citizens of Albany and Decatur are anticipating the publication of the new telephone rate schedule with interest. The new schedule is said to vary in percentage, the highest raise being approximately 37 per cent, applying only to Birmingham, while the lowest is 11 per cent, applying only to a few small localities. The average raise for Albany and Decatur is said to be about 25 per cent.

## CLEVELAND THROBS WITH ENTHUSIASM; MIGHTY RUBE MAY PITCH ONCE MORE

Temperature of Fans Goes Sky High as Teams Arrive There Today.

## INDIANS ARE FIGHTING WITH BACKS TO WALL

Coveleskie Expected to be Sent in Again by Manager Speaker.

(By Jack Velock)

International News Service Editor  
CLEVELAND, Oct. 8.—With the arrival of the Indians and Dodgers here today to continue the world's series battle, begun in Brooklyn last Tuesday, Cleveland temperature went sky high. Already agog with excitement over the first championship team and the first world's series it ever has had, the Forest City fairly throbbed with enthusiasm and expectation.

The fact that the Indians have come home to fight, with their backs to the wall, against a team that has so far proven more than a match for them, detracted nothing from the interest of Forest City fans. The arrival of the world's series performers gave them chance to rest today, but Manager Robinson planned to pilot the members of the Dodgers out to League park this afternoon and give them a light workout. The members of the Indians scattered to their various homes on arrival here and about the only practice they will get is skull practice with Manager Speaker.

Speaker is expected to send Coveleskie back at the Dodgers Saturday. Manager Robinson has said all along that he expects to send Rube Marquard back at the Indians. Since Sherrod Smith demonstrated that a southpaw can beat them, it would not be surprising should the Rube get his second chance tomorrow.

Prior to the start of the series a good many of the experts had figured that the supposed superior team work of the Indians and their greater hitting strength, as indicated by the 300 average they piled up this year, would stand out in the series.

To date this has been far from the case, for Brooklyn has fielded and slugged the ball in fine fashion. Pitching therefore, is bound to be the deciding factor and much depends on how Robinson and Speaker handle their pitchers from now on and whether or not the hurlers, who have scored victories, will be able to repeat.

## SCHOOL PROGRESS SATISFACTORY FOR THE INITIAL MONTH

The Albany city school reports for the first month show gratifying results says a statement from Superintendent Cowart. The only drawback noted was the lack of room. According to the statement the school census for Albany shows over 2000 children of school age, whereas the attendance to date has reached only 1548. While this is by far the largest attendance ever enrolled, there would be a few hundred more in school is the belief of Prof. Cowart, if there was sufficient room.

"We have thirty eight white teachers in all," said the Superintendent. "Seven in the High School and thirty one in the grades. Our department of expression, as taught by Miss Ethel Powell, bids fair to be of great service. Miss Powell is a graduate of the Curry Expression School of Boston. She has also studied in the Boston School of Public Speaking, and is a former pupil of Gertrude Walsh, of New York. Miss Powell has also studied and practiced her art under Miss Hollingsworth, the noted elocutionist of Washington, D. C. It is our hope to have some public recitals by the pupils of Miss Powell in the near future."

**WEATHER**  
Fair tonight and Saturday

## PRESIDENT WILSON, THE MAN, STRIKES BACK

As the presidential campaign wears to a close, misrepresentation, unfairness and discourtesy may be expected to be indulged in more and more by those who all their lives have been in the habit of using such methods. A notable example of the spirit and practice of the men who are seeking to discredit the President and his administration, was the recent stand taken by Senator Spencer.

That ill advised or purposely unfair Senator of a great state, said in a speech in Missouri that President Wilson had promised military aid to both Roumania and Serbia under certain conditions. When Mr. Tumulty, the Secretary to President Wilson, made official denial of the charge of Spencer, that politician promptly came out publicly with the reply that he did not believe that Mr. Tumulty had authority to deny his original charge. When the latest utterance of the Senator came to the attention of the President, he wrote Mr. Spencer a letter, not an official letter, but a personal one signed by plain "Woodrow Wilson," saying not in so many words but very distinctly, nevertheless, that Senator Spencer had told something that could not be properly described by the use of parliamentary language. The actual words the President did use to Mr. Spencer were: "I reiterate the denial (Tumulty's). The statement you made was false."

In those straight from the shoulder sentiments appears the same Wilson, who when he was attacked by the disloyal element during the war, replied to them contemptuously; the same Wilson, when patience and reasoning were no longer a virtue, told the German Imperial Government that they could have force to the limit.

His enemies have sought to ignore the President and his wisdom at all times, but they made their most desperate efforts to discredit him after he had been laid low with an almost fatal illness—an illness that had been brought on by the double dealing of just such men as Senator Spencer had proven himself to be. The friends of the President recognize in the impudent charge of Spencer an out-cropping of that same unmanly attitude and practice which characterized Mr. Wilson's enemies during his long illness, the whole purpose of those attacks being to convince the public that a coterie of irresponsible persons were directing the government rather than the duly constituted authorities. Mr. Wilson resented what Senator Spencer said because he is a man. He struck back at him, because Spencer had tried to lower the dignity of the office of the President of the United States.

## "COX THE UNBEATABLE"

The recent interview given out in New York by Col Henry Watterson is worthy of more than passing notice. That veteran writer and political prophet has had unlimited opportunities for observation. He entered the political arena as early as he was able to pass judgment on the simplest of political matters. He has enjoyed intimate acquaintance with all the great men of his generation regardless of party. He was the trusted friend and advisor of Republicans almost as much as of Democrats, although he was always a member of the latter party. He was with Lincoln and Stanton during the dark days of the civil war. He has advised with every President since that time, and his judgment ought to be worth something. Colonel Watterson says that Governor Cox is "unbeatable." His whole statement leading up to his estimate of Cox, is worthy of careful study:

"He (Cox) is a journalist and that means a deal. A lawyer is controversialist a logician, a master of doctrines, theories, equities. The doctor is a healer, and more or less a specialist. The journalist is an all-round man of affairs; that is what we require in a president of the United States.

"Cox is a man among men. He has shown himself ever a practical man, a man of sense and judgment, who, as the saying puts it, has studied the cue papers and ascertained the difference betwixt hawk and buzzard. In a word he does things we want. We need that sort of a man in the White House.

By way of encouragement to the rank and file of the party, Col. Watterson concludes his interview as follows:

"Now comes the chance for the Democrats to get together to wipe out the old scores and with a long pull, a strong pull, and a pull all together, to line up once more on the resolutions of '98 and 'fifty-four, forty or fight."

"Write it 'Cox the unbeatable.'  
"Better get aboard the band wagon, boys."

## HONOR AND PROGRESS IN DEMOCRATIC VICTORY

The campaign of Cox and Roosevelt is sure to end in victory for their party, if the voters keep in mind the definite promises of the Democratic platform, and also note the fundamental changes for the good of the common man as made by the present Democratic administration.

the party now led by Governor Cox, that assumed the mighty task of capturing the government from the privileged classes, which under Republican rule had begun to think that the government existed for their especial benefit.

The Adamson eight hour law, the child labor law, the Clayton Anti-Trust law, the workingman's compensation act, road building, the sea, man's act, a rural credit system, the federal trade commission and the federal reserve banking system, the friendly attitude toward labor, and last but not least the defeat of world wide autocracy—these are some of the accomplishments of the party of Cox and Roosevelt, and should be credited to it.

Foremost among the pledges of the party in the present campaign is its promise, if returned to power, to conserve and make permanent all that the administration of Mr. Wilson made possible.

If voters feel that the accomplishments of the Democratic administration should be the heritage of the people of the future, they should seal them against possible change, by sending another Democratic President to the White House. Above pledge made to our fallen dead in the great war—that wars should end forever with victory for democracy and freedom, should see to it that the definite plan and agreement to end war, called the league of nations is endorsed at the polls.

## THANKS

In the reorganization of the editorial staff of the Albany-Decatur Daily we observe that our distinguished young friend Ben Bloodworth who had been City Editor of that thriving publication had been elevated to Associate Editor, the Editor and General Manager position being graced by W. R. Shelton. Congratulations and here's hoping the Twin Cities and their splendid newspaper will grow and grow until it will make Huntsville have to hustle to keep ahead of them.—Huntsville Daily Times.

## ABILITY-MERIT

Under present conditions no American boy however humble his birth needs to fear the future provided he possesses ability and merit, coupled with plenty of energy. Merit will reach the top no matter what the circumstances.

There is no recognized aristocracy in this country, except that brought about by brains and energy. The rich man of today is the poor man of tomorrow and vice versa, the only aristocracy is found at the forefront of human endeavor. The men in the front of the procession are the aristocrats if by word aristocrat is meant standing power and influence.

But what does this mean to a country,—it means that the best men, those possessing natural ability are always at the front. There is no law of inheritance in this country which gives precedence to weaklings and the undeserving. If a family retains power and influence it must be through sheer ability. Even inherited money will get away from the weak and incompetent.

Receiving wealth by inheritance, is of course an immense advantage, BUT, it means nothing unless backed up by enterprise and ability. The forward pushing man will invariably get ahead of those who confine their activities to pleasure seeking and leading lives of ease and comfort.

It is this state of affairs that has made the American nation the greatest and most powerful the sun ever shone upon. It is because the best men are leaders. Human leadership in this country is not left in the hands of the incapable, just because their fathers were leaders, it is rightfully taken hold of by the strongest, the ablest and the best men of the land.

In European countries, the leaders are chosen by right of birth, precedence, or inheritance. In this country they are chosen by virtue of natural ability and meritorious selection. Is it any wonder that the United States of America has forged to the front among the nations of the world?

There is no aristocracy in this country except that which seizes precedence because of that inherent right that belongs always to the strongest, the bravest, the most talented and the best. That is where America stands on the question of aristocracy. There is an aristocracy here, if such it may be termed, but it is that aristocracy that belongs always to the foremost,—it is an aristocracy of ability instead of inheritance.—Rome Tribune.

## ANOTHER'S CREED

There has been launched in Seattle a movement called The World Builders with these 10 tenets:

- 1.—To BUILD and not destroy.
- 2.—To WORK and not idle.
- 3.—To HELP and not hinder.
- 4.—To HEAL and not hurt.
- 5.—To HOPE and not despair.
- 6.—To BELIEVE and not doubt.
- 7.—To LEARN and not forget.
- 8.—To TEACH and not preach.
- 9.—To PRAISE and not condemn.
- 10.—To LOVE and not hate.

With the object of the movement stated as follows:

To promote the true brotherhood of man; to bring about a better understanding between Nations by promoting a better understanding between nationals; to support all constructive movements, physical as well as moral and mental, and to combat all elements of destruction; to combat all antagonisms—racial, religious, political as well as moral and mental, and to combat all elements of destruction; to foster, by education, knowledge of one another; to preach the doctrine of "Charity toward all, malice toward none," to clean our own national house before we criticize others; to forgive that we may be forgiven; to be more jealous of our honor than of our profits; to always give the other man the benefit of the doubt; to condemn no Nation for the fault of the individual; to inspire trust by trusting, as well as by being worthy; to repeat no evil of others; to realize that greater love is the only mark or measure of superiority; to respect others before we ask for respect; to die nobly rather than to live innobly.

These are the considerations which should actuate all of us as well as the unanswerable cold and substantial business facts in our stand against the scheming, intriguing activities of those who have only destruction as their goal.—Business

## Just In Passing

## MARKED SLUMP

E. P. Jennings, of Foley, Ala., is in the city. Said he to representative of this paper: "I have recently visited eleven northern states and there is a marked slump in business I fear it is coming in the south."

## "THE DAILY DO PULL"

"The Dr. Frank Chenault home on 4th Avenue West, was placed with me by Mr. White who had moved to the country at \$4,750", said J. A. Thornhill. People said, You will never get it. I said watch me and kept The Daily on the Look Out for me and behold, a man from Tennessee came to my office and said, I have watched that advertisement and want that house. Well, J. M. Byrass was in the house and saw how the boat was heading in and by special manipulations headed off the Tennessee man at the very price many Albany people said the property could not be sold for and the credit is absolutely due the DAILY.

## CHANCES GOOD

"Despite the pessimism in some quarters, I believe the chances for victory of the Democratic party are good," said Congressman Almon, who leaves soon for a stumping tour in the interest of the Democratic ticket. "The Democrats have reserved the most of their ammunition for the October drive."

## HOTEL ADDITIONS

Work on the addition to the Lyons hotel is progressing rapidly and will be completed at an early date. In the addition, the lower floor will be given over to a large and handsomely appointed banquet hall, which may be used for all banquets and small conventions.

## Yielding to Necessity.

There is, as Cletches pointed out, such a thing as a "noble yielding to necessity," which is accounted divine. A man must, of course, be convinced that what he yields to is in truth necessity. But when that is clear there should be no repining, and no fear of what "others may say." Until it is clear there should be no yielding. The poet, who was sad because he could not paint a picture, and the painter who mourned because he could not write a poem, were surely most unreasonable. They clearly knew nothing of the doctrine of diversity of gifts. The doctrine is not only true but in the highest degree, consoling and cheering.—Exchange.

## Peculiar Armenian Custom.

American divorces might be decreased by the introduction of an old Armenian custom which forbids a bride to speak to any man other than her husband for seven years, suggests a near East relief worker, writing from Erivan, Armenia.—World Outlook.

## ALL MUST BE ABLE TO READ

Exemptions in New Immigration Law in Favor of Russian Jews Nullified by Revolution.

The new immigration law assumes a new interest in view of the changed conditions in Russia.

This law excluded all alien immigrants more than sixteen years of age who cannot read some language. But it exempts certain classes—exceptions that are inserted mainly in the interest of Russian Jews. Any immigrant who can show that he comes to the United States to escape religious and economic persecution is admissible whether he can read or not.

This is the motive that has impelled practically all the Russian Jewish immigration of the last 30 years, says World's Work. Thus the new immigration law, had conditions remained intact, would have excluded practically no immigrants such as congregate in large numbers on the East side of New York. With the removal of all religious and economic disabilities in Russia as a result of the Russian revolution, this claim can no longer be made, and Russian Jews will now have to be able to read, like all other immigrants.

Toronto Like American City. Toronto is the most American of the great Canadian cities, and also the most Canadian.

"American" is here used as the Canadian uses it, to mean the United States. The mere geographical fact that Canada is in America does not count for anything with him. When he says the American election or American whisky he means United States.

Toronto, being near the border, doing business with and after the fashion of the United States and lacking the picturesque element in its population that makes Montreal and Quebec different, is very much like Buffalo, or any of several cities right across the border. The people wear the same kind of clothes and talk the same kind of slang, the buildings are the same and the same articles are sold in the stores.

## War Conservation.

"In the midst of monster destruction," writes Isaac F. Marcossin in Everybody's, "an enormous conservation is achieved. Only the dead are laid away. Nothing is 'scrapped.' They make lace out of castoff shoes; redeem shattered guns; convert refuse fat into glycerin; replenish the flickering fires of life itself. War is not all waste.

"And when this moving picture, more animated than any imaginative play ever thrown upon cinema screen, has passed before you, you realize, even before a single shot is fired, that energy and organization of the highest order have been tested to a well-nigh incredible extent.

"It dawns on you that war is work!"

## Grateful for Rain.

To show how badly rain was needed, a native who came to Newcastle market with his wagon was so overjoyed that he rushed into the center of the street in front of the town hall when the storm was at its severest and offered up a prayer of thanksgiving. He then started drinking the muddy water as it flowed past him.—Johannesburg (Transvaal) Sunday Times.

## You Must Replace the Wear and Tear on the Human System

Did you ever stop to consider what a tremendous task is placed upon your human system every day?

Your heart is constantly pumping life and vitality to every part of your body. This is being rapidly consumed after being turned into energy and strength that keeps your system performing its various functions.

Every day there is a certain amount of wear and tear that must be replaced, if you are to enjoy

good health. Many people have found S. S. S. a great aid in keeping their system in good condition. Being such a fine blood tonic and system-builder S. S. S. strengthens and enriches the blood supply, and gives new vigor and vitality to the whole body.

S. S. S. is sold by all druggists. Write for free literature and full information to Chief Medical Adviser, 162 Swift Laboratory, Atlanta, Ga.

These goods are canned right where they grow. They are picked when they are ripe and have their full strength, and this all goes into every can. That's what gives them the rich, fresh, natural flavor.

Buy your canned goods from us and get the "New Crop" and the big cans for the little price.

Give us your grocery order today.

## OPENS WEAK, BUT

## MARKET RALLIES

**CABLES AND FIRST WERE WEAKER, BUT WERE FOLLOWED BY IN IMPROVED**

(International News Service)  
NEW YORK, Oct. 8.—Poor reports from textile centers, renewed fears of a strike of British coal miners and continued excellent weather in the belt were chiefly responsible for a drop of 10 to 44 points in prices at the opening of the cotton market today. Trade was considerably mixed early, but included more or less Southern selling and buying by Liverpool. Cables at first were weaker but later rallied, being followed by an improvement in the undertone here after the call, mainly on purchasing by the trade. At the end of the first 20 minutes the market was about unchanged from the previous close.

**FOR SALE**—A big lot of rough lumber, cheap. Call 409 W. Decatur. 5-6t

**FOR SALE**—Kingsley Peanut Roaster, in good condition. Capacity four bushels popped corn per hour and two bushels peanuts. Real cheap. R. L. Brooks, Box 62, Athens, Ala. 5-3t

**FOR SALE** at bargain. One large double door iron safe. One light steel fire-proof safe. Tennessee Valley Bank. 11-1t

**WANTED**—To buy for our Moulton street store, Dressers, Beds and any odd pieces of Furniture, will pay cash for same or take them in exchange. Phone 95, Morgan Furniture Co. 12-1t

**Carrel Bros. for Furniture.** Bank street, Decatur. 1t

We buy all kinds of used furniture, such as dressers, Washstands, Wood beds, etc. We give in exchange new furniture and pay cash for same. Dinsmore Bros. 208 Moulton St., Phone 397, Albany 22-1t

**10%—Ten year installments—loans on good dwellings** Allison 4 Woods. 10-1t

**LAND FOR SALE**—In 5, 10 or 30 acre tracts. W. B. Edmundson, Wilder place, phone 124 Albany M3-1t

**FOR SALE**—51 acres, good house and barn, all in high state of cultivation and will improve, running water also well at house and barn—one-half mile from Austinville. See F. E. Taylor at Lyle-Taylor Grain Co. 14-1t

**FOR SALE**—160 acre farm, 90 acres in high state of cultivation, best spring in state, located in Somerville pike, 10 minutes out from Albany. See F. E. Taylor or Chas. H. Eyster. 14-1t

**FOR SALE**—Farm of 81 1-3 acres on Courtland pike, one mile from Decatur, in high state of cultivation. See F. E. Taylor or J. W. Clopton 14-1t

Several 40 acres track of woodland near Albany and near Danville and Moulton Pikes. The Sale of wood will easily pay for clearing. Priced right. See Penney & Whitman or Otto. Moebes. 14-1t

I wish to buy your second hand goods. Also have good bargains in bicycles, parlor organs and other house goods. We still frame pictures E. Reagor, 112 Church St., Phone 22

**TO WHOM IT MAY CONCERN** We hereby give notice that, O. H. Harris, is no longer in our employ. And all persons are hereby warned not to deal with him as our employee, Standard Computing Scale Co., Rice and Cowles Scale Co., Inc., State agents. (Adv) 6-3t

**Work and Play.** South Americans have not yet learned that play is as necessary to the child as is work. "A sound mind in a sound body" has not been stressed to the people of that continent as it has to those of North America. They think that time spent in play is time lost—and they frown upon it. "The parents wish to keep their children poring over their books, and believe that recreation interferes with their intellectual development," said a member of the national committee on physical education of Uruguay recently. It is only in recent years that the people of the United States have realized that children must be taught to play just as they must be taught to think. There are yet among us some who think that money spent on playgrounds and on instructors is money lost—but we are gradually learning; and the South American will learn, too.—Houston Post.

**Motor Boat on Long Voyage.** The City of Portland, the largest motor boat ever built in the United States, has recently started on her first long trip. She left Columbia river for Australia last month, carrying a cargo of 2,250,000 feet of lumber. This boat is 290 feet long and 44 feet across. She is equipped with two Diesel engines of 320 horse power each. They are operated by oil fuel and for her long voyage the vessel carried 1,300 barrels of oil.

**Superstitions of the Great.** Dr. Samuel Johnson, so it is recorded, would never enter a room left foot foremost, and brave Marshal Saxe was in terror at the sight of a cat. Peter the Great was in a tremor of fear if he had to cross a bridge, and Byron turned pale if he spilled salt at his table.

**Africa's Big Rivers.** Of the African rivers the Zambesi 2,000 miles in length, is the largest river in South Africa; the Orange river comes next with 1,200 miles and the Limpopo next with 900 miles.

**Dove Figures in Folklore.** The dove or pigeon has occupied a prominent place in folklore, legend and history since the bird brought the olive branch to Noah. The earlier artists used the dove frequently in their religious paintings. The "Madonna and Child," and the angels are shown with white pigeons fluttering about them. The bird was made the symbol of divine spirit. It appears in pictures of Christ's life and baptism. St. John (1:32) says: "I saw the spirit descending from heaven like a dove."

**Warrior of the Bronze Age.** The museum of the British Royal College of Surgeons has been enriched by the remains of a British warrior of the Bronze Age, unearthed while some trenches were being dug. The skull of the fighting man has a hole in it over the left eyebrow, thus showing that some 3,000 years ago he fell to the battle of a foe. An authority says that in severity this wound would rival those suffered by the soldiers in the present war, though the injury was not immediately fatal as there are signs of repair all round it, and the warrior likely lived on for months afterward. Another authority describes him as a slim, short man, who died young. In the grave was found a portion of the skull of an ox and it is supposed that the two were buried together in order to conform with some religious rite prevailing in those days.

**English City in Business.** The government appeal to us all to grow, as far as possible, what food-stuffs we can and otherwise provide our own "rations," says London Answers, has already been forestalled by certain towns in the country. Torquay owns a big rabbit warren and a fine lot of sheep. It bought about 2,000 acres some years back far up on Dartmoor to get water for the town. By chance there was a good rabbit warren on the land and Torquay had the sense to keep this going, and one year recently it sold no less than 10,000 rabbits at an average of sixpence each from its own rabbit farm. As there was too much grass there, Torquay also began by buying 50 sheep, and now it has quite a yearly income, too, from its sheep farms on Dartmoor.

**Restoring Lost Hearing.** The newest therapeutic machinery on record is that now being tried out in a French hospital to restore the hearing of soldiers who have lost it in battle. The machine is a phonographic instrument which pronounces vowels forcibly. These vowel sounds cause a vibration which acts upon the sensitive drum of the ear like massage, overcoming its numb paralysis. A number of tests have already demonstrated the power of the instrument to restore hearing to soldiers who are totally deaf. It must be tried continuously for several hours a day for two weeks at least.

**Seek the Higher Life.** Whatever you do, be greater than your calling; let your manhood overpower your position, your wealth, your title. Masterful living, constant growth toward a higher life, are the great ends of human existence. Your calling should be the great school of life, the great man-developer, character-builder, that which should broaden, deepen and round out into symmetry, harmony and beauty all the God-given faculties within you.—Orison Swett Marden in Chicago News.

**After the Night, the Morning.** The eternal stars shine out as soon as it is dark enough.—Carlyle.

**He Surely Had.** William J. Bryan was expected in St. Paul the other day. He didn't come, but that is another story.

A reporter and a photographer, bent on overcoming the commoner's well known aversion to talking or having his picture taken, were seeking him aboard a train just arrived at the Union station.

They approached a dusky whisker-wielder and inquired if Mr. Bryan was aboard.

"Shuah he is. Heah he comes now. Heah, Mr. Bryan, gemmen wishes to see you."

Neither the shing top nor the curly sidelocks of William J. were in sight and the inquisitive pair waited until another son of Africa approached and said:

"Ah's Mistah Bryan. What can I do foah you, sah?"

"Not a thing. But, gosh! How you have changed, Mr. Bryan," said the photographer as he hastened down the steps with his companion.—St. Paul Pioneer Press.

## BATTLE WITH GIANT EAGLES

California Deer Hunters Had Fierce Fight Before Overcoming Two Monarchs of the Air.

Attacked by two monster eagles while deer hunting in the Malibu district, Doctor Kingsbury of Ocean Park, G. M. Wilson, a rancher, and Policeman Harry Wright of Santa Monica, fought two hours before they were able to kill the birds, writes a Los Angeles correspondent.

Shrieking and screaming, the eagles tore at the men with their claws, tearing Wright's clothing in many places and inflicting a flesh wound on Kingsbury's right shoulder.

The fight began with only one of the birds. The men were hunting on the Williams ranch with two dogs. Suddenly a huge eagle swooped down and grabbed one of the dogs. It circled 20 feet in the air with the dog in its talons before the men could fire. The first shot missed, but the second shot from Kingsbury's gun brought the bird down.

As the three men rushed forward the eagle dropped the dog and struck out at Wright, screaming all the while. Its screams brought its mate, the latter making an attack on Kingsbury and sinking its talons into his shoulder.

Williams shot and killed the bird that was fighting with Wright and then the two rushed the remaining eagle. It started to fly away and then came back. The men began shooting at it, driving it a little farther away with each shot. For four miles they chased the bird before finally killing it.

## HONOR BELONGS TO FITCH

Connecticut Man Built Steamboat Twenty Years Before Fulton Launched the Clermont.

The first trial of John Fitch's pioneer sidewheel steamboat was made on the Delaware August 22, 1787, anticipating Fulton's Clermont by 20 years. Fitch was a native of Connecticut and prior to building his steamboat had been an armorer in the military service during the Revolution, a surveyor in Virginia, and a manufacturer of sleeve in Trenton. In 1788 he commenced work on his first steamboat, after experimenting with a skiff propelled by steam. This pioneer craft was fitted with an engine of 12-horsepower, and though the boat did not attain sufficient speed to answer the purpose of a packet, the trial proved conclusively the efficiency of steam as a motive power for vessels. In 1788 Fitch built a second steamboat, which made several passages between Philadelphia and Burlington at the rate of four miles an hour. In 1790 a third craft was built and was run as a passenger craft on the Delaware, making during the season more than 2,000 miles at an average speed of seven and one-half miles an hour. Although John Fitch scored the first practical success in steam navigation, he was a failure financially, and in 1798 he committed suicide at Bardonia, Ky.

Torquay owns a big rabbit warren and a fine lot of sheep. It bought about 2,000 acres some years back far up on Dartmoor to get water for the town. By chance there was a good rabbit warren on the land and Torquay had the sense to keep this going, and one year recently it sold no less than 10,000 rabbits at an average of sixpence each from its own rabbit farm. As there was too much grass there, Torquay also began by buying 50 sheep, and now it has quite a yearly income, too, from its sheep farms on Dartmoor.

**Restoring Lost Hearing.** The newest therapeutic machinery on record is that now being tried out in a French hospital to restore the hearing of soldiers who have lost it in battle. The machine is a phonographic instrument which pronounces vowels forcibly. These vowel sounds cause a vibration which acts upon the sensitive drum of the ear like massage, overcoming its numb paralysis. A number of tests have already demonstrated the power of the instrument to restore hearing to soldiers who are totally deaf. It must be tried continuously for several hours a day for two weeks at least.

**Seek the Higher Life.** Whatever you do, be greater than your calling; let your manhood overpower your position, your wealth, your title. Masterful living, constant growth toward a higher life, are the great ends of human existence. Your calling should be the great school of life, the great man-developer, character-builder, that which should broaden, deepen and round out into symmetry, harmony and beauty all the God-given faculties within you.—Orison Swett Marden in Chicago News.

**After the Night, the Morning.** The eternal stars shine out as soon as it is dark enough.—Carlyle.

**He Surely Had.** William J. Bryan was expected in St. Paul the other day. He didn't come, but that is another story.

A reporter and a photographer, bent on overcoming the commoner's well known aversion to talking or having his picture taken, were seeking him aboard a train just arrived at the Union station.

They approached a dusky whisker-wielder and inquired if Mr. Bryan was aboard.

"Shuah he is. Heah he comes now. Heah, Mr. Bryan, gemmen wishes to see you."

Neither the shing top nor the curly sidelocks of William J. were in sight and the inquisitive pair waited until another son of Africa approached and said:

"Ah's Mistah Bryan. What can I do foah you, sah?"

"Not a thing. But, gosh! How you have changed, Mr. Bryan," said the photographer as he hastened down the steps with his companion.—St. Paul Pioneer Press.

**Warrior of the Bronze Age.** The museum of the British Royal College of Surgeons has been enriched by the remains of a British warrior of the Bronze Age, unearthed while some trenches were being dug. The skull of the fighting man has a hole in it over the left eyebrow, thus showing that some 3,000 years ago he fell to the battle of a foe. An authority says that in severity this wound would rival those suffered by the soldiers in the present war, though the injury was not immediately fatal as there are signs of repair all round it, and the warrior likely lived on for months afterward. Another authority describes him as a slim, short man, who died young. In the grave was found a portion of the skull of an ox and it is supposed that the two were buried together in order to conform with some religious rite prevailing in those days.

**English City in Business.** The government appeal to us all to grow, as far as possible, what food-stuffs we can and otherwise provide our own "rations," says London Answers, has already been forestalled by certain towns in the country. Torquay owns a big rabbit warren and a fine lot of sheep. It bought about 2,000 acres some years back far up on Dartmoor to get water for the town. By chance there was a good rabbit warren on the land and Torquay had the sense to keep this going, and one year recently it sold no less than 10,000 rabbits at an average of sixpence each from its own rabbit farm. As there was too much grass there, Torquay also began by buying 50 sheep, and now it has quite a yearly income, too, from its sheep farms on Dartmoor.

**Restoring Lost Hearing.** The newest therapeutic machinery on record is that now being tried out in a French hospital to restore the hearing of soldiers who have lost it in battle. The machine is a phonographic instrument which pronounces vowels forcibly. These vowel sounds cause a vibration which acts upon the sensitive drum of the ear like massage, overcoming its numb paralysis. A number of tests have already demonstrated the power of the instrument to restore hearing to soldiers who are totally deaf. # BETTER THAN WHISKEY FOR COLDS AND FLU

New Elixir, Called Aspirinal, Medicated With Latest Scientific Remedies, Used and Endorsed by European and American Army Surgeons to Cut Short a Cold and Prevent Complications.

Every Druggist in U. S. Instructed to Refund Price While You Wait at Counter If Relief Does Not Come Within Two Minutes.

Delightful Taste, Immediate Relief, Quick Warm-Up.

The sensation of the year in the drug trade is Aspirinal, the minute cold and cough reliever, authoritatively guaranteed by the laboratory, tested, approved, and most enthusiastically endorsed by the highest authorities, and proclaimed by the common people as ten times as quick and effective as whiskey, rock and rye, or any other cold and cough remedy they have ever tried.

All drug stores are now supplied with the wonderful new elixir, so all you have to do to get rid of that cold is to step into the nearest drug store, hand the clerk half a dollar for a bottle of Aspirinal and tell him to serve you two teaspoonsful with four teaspoonfuls of water in a glass. With your watch in your hand, take the drink at one swallow and call for your money back in two minutes if you cannot feel your cold fading away like a dream within the time limit. Don't be bashful, for all druggists invite you and expect you to try it. Everybody's doing it.

When your cold or cough is relieved, take the remainder of the bottle home to your wife and babies, for Aspirinal is by far the safest and most effective, the easiest to take and the most agreeable cold and cough remedy for infants and children.—Adv.

### SURPRISE PARTY

Wednesday Afternoon little Miss Jennie Zensmeister was delightfully surprised by her many friends with a birthday party, at the home of her parents, Mr. and Mrs. H. Zensmeister 10th Avenue, West.

The large birthday cake with ten candles decorated the centre of the table. Many games and contests were enjoyed during the afternoon, after which delicious ice cream and cake were served. Quite a number of pretty and useful gifts were received by this tiny Miss.

Those invited were Frances Walker, Lois Gray, Louise Young, Alma Gneaty, Ruby Roberts, Bertha Short, Opal Tomalin, Jennie and Katherine Zensmeister and Johnnie James, Richard Short, Ray Young and Johnnie and Edwin Zensmeister.

### WOMEN ORGANIZE

At a meeting held in the parlors of Lyons Hotel Thursday, "The Morgan County League of Women Voters" was organized, with an initial membership of twenty-nine, and with the following officers: Chairman, Miss Unity Dancy; first vice chairman, Mrs. F. F. Tidwell; second vice chairman, Mrs. Frank Davis; secretary, Mrs. W. E. Todd; treasurer, Miss Mattie Jones; publicity secretary, Mrs. L. P. Troup.

This county organization is to be affiliated with the state and national leagues, in work and in purpose.

The purpose of the league is two fold: "To foster education in citizenship," and "to support improved legislation."

The extending of the ballot to the women of Alabama is more than merely an added privilege to be lightly thrown away; it is the thrusting upon them of a great and a serious responsibility. It behooves us, then, the women who stand for what is good and right, to be able to meet this new responsibility as intelligently and as effectually as we may; our aim should be not merely to vote but to vote to the best possible advantage. To this end citizenship schools and classes are being formed throughout the country "to make every woman an intelligent voter, acquainted with processes of government and voting, informed as to citizenship rights and duties, and aroused to the needs of certain national and state reforms."

The state organizations send out instructors to meet the needs of the local leagues. It is the plan of the Morgan County League to have a school of instruction for three days this month, the date to be announced later.

The urgent need now is that every woman register.

Mr. and Mrs. George Jackson and Mr. and Mrs. T. H. Brannam have returned from Birmingham after attending the fair.

Building fresh fires each morning makes lots of fuel. Cole's Hot Blast Heaters save time, trouble and expense.—Adv.

### HALL-KARR WEDDING

#### BRILLIANTLY SOLEMNIZED

The marriage of Miss Emily Louise Karr, daughter of Mr. and Mrs. D. A. Karr, and Mr. Wilmer Hall, was brilliantly solemnized yesterday at high noon at the First Presbyterian church, the ceremony being impressively performed by Dr. D. W. Hollingsworth, pastor of that church. Long before the hour set for the wedding, the church was filled with relatives and friends, many coming from out of town to be present.

The wedding music was particularly beautiful. Mrs. William Taylor, of Beckley, W. Va., aunt of the bride, presided at the organ. Mr. J. F. Johnson Jr. sang "Until" and Mrs. Morrison Paxton sang "With All My Heart" and "For You". The wedding party entered to the sweet strains of the bridal chorus from Lohengrin. The ushers were Mr. Asbury Malone of Albany, Ala., Mr. Bryan Hotchkiss of Birmingham, and Messrs. James Reeder, John D. Ashcraft and Walter Hugh Glenn of Florence.

The bridesmaids were Misses Marguerite Johnson, Harper Gilbert, Clyde Willingham, Genevieve Simpson and Eliza King.

The bride, was never lovelier than when she entered on the arm of her father, Mr. D. A. Karr, who gave her in marriage. Her patrician beauty was accentuated by the exquisite wedding gown of cream Duchesse satin, trimmed with rose point lace. A long court train hung from the shoulders, and the tulle veil was girlishly arranged in high coronet effect across the back, caught closely to the hair with orange blossoms. Her chatelaine bouquet was of valley lilies, orchids and ferns.

The groom was attended by his father, Mr. W. N. Hall, of Decatur, as best man.

Following the ceremony an elaborate wedding breakfast was served for the bridal party, relatives and out-of-town guests, at the home of the bride's parents on Wood avenue.

Mr. Hall and his bride left on an early afternoon train for a three weeks western trip, after which they will be at home to their friends at the home of the bride's parents.

No wedding in Florence for a long time has been the center of more loving interest and affection than that of Miss Karr and Mr. Hall. The bride because of her beauty and charming personality, has enjoyed unusual popularity during her brief young ladyhood. Mr. Hall is prominently connected with the engineering department of Wilson Dam. He is a 1915 graduate of Auburn, also a graduate of the Ground School at Kelly Field, where he afterwards served for 18 months as aviation instructor with rank of first lieutenant, U. S. A.

Among the out-of-town guests for the wedding were Mr. and Mrs. W. M. Hall of Decatur; Mrs. J. C. Cullom of Nashville; Mrs. W. M. Taylor of Beckley, W. Va.; Mr. Bryan Hotchkiss of Birmingham, and Mr. Asbury Malone of Albany.—Florence News.

Mrs. Florence Mudd, of California, left this morning for Birmingham to visit relatives for a few days. Mrs. Mudd was accompanied to Birmingham by her brother, C. M. Williams and nephew Duncan.

Mrs. Claud Gallaher, and son, Carl, are visiting Mrs. W. E. Stewart of Birmingham.

Mr. and Mrs. E. Albers are in Birmingham this week attending the fair.

Mrs. A. M. Jones of Vincent is the expected guest of her daughter, Mrs. J. H. Prince.

Medical inspection of all the school was begun Wednesday morning by Dr. Austin assisted by Dr. Grayson.

Mrs. Burns Kelly, who has been the guest of Mr. and Mrs. Henry Hartung for several days has returned to her home in Huntsville.

A meeting of the Morgan County League of Women Voters will be held at Carnegie Library Saturday morning at 10 o'clock. It is earnestly hoped that every woman in the county who is interested, will attend this meeting or send her name for enrollment. An especial invitation to attend is extended the public school faculties.

Mrs. P. P. Gilchrist has returned from a visit to Birmingham.

The Junior Missionary Society of the First Christian church will meet with Miss Violet Winton at 2:30 p. m. Saturday afternoon.

Mrs. E. A. Orendorff of Cincinnati is on her plantation in Hillsboro, to be gone a week or ten days.

Mr. and Mrs. C. C. Snider of Birmingham, are the guests of Mr. and Mrs. W. H. Driskill.

### PERSONALS

Dr. L. J. Deloney has returned from Valhermosa and will go to Leighton, Ala., in a few days.

J. H. Jones of Vincent, Ala., is visiting his sister, Mrs. J. H. Prince.

### REVEL IN FICTITIOUS HORROR

Books Turned Out by Pessimistic Writers Are Becoming Tiresome—Antidote Is Recommended.

Novelists of that dreary, sordid school that imitates that of Russia, save in the matter of talent, delight in portraying the unhappy lot of the poorer classes in this country. These unfortunate are compelled to work at a starvation wage for brutal manufacturers, who "loll on silken cushions while the wives and children of the workmen perish from cold and hunger." All sorts of persons find it to their interest to keep this myth alive in the minds of the credulous and benevolent. That the militia and federal army are frequently called out to shoot down miners simply because they insist upon going to their day's work every morning is firmly believed by many individuals who ought to know better.

An enormous mass of this pessimistic literature, both in bound volumes and in the pages of periodicals, weighs down the book counters and newsstands. Its perusal is apt to cause profound melancholy at thought of the widespread destitution that surrounds us while we "loll on silken cushions." The frequent hints or threats of an impending French revolution are appalling to the average mind.

There is only one way to dispel the gloomy forebodings that arise as we read of these horrors, and that is to go out and try to induce someone to cut the grass.—New York Herald.

Lucilius is called the inventor of satire.

### BIRTH

Born to Mr. and Mrs. Guy Griffith a 8lb girl, Oct. 8th.

### Mocha Sheepskin.

The world's supply of Mocha sheepskin is obtained by about a dozen buyers, who have their native collectors, in caravans to collect the skins at various centers, of which Mocha, Berbera, Zeylah and Hodeidah are the main points. From there they are sent to Aden, a British coaling station, which, on account of its location, is the shipping point for skins sent to London, the continent of Europe, and the United States.

**Eucalyptus Trees.**  
The grand eucalyptus trees in Gippsland are probably the grandest of their kind in the world, and quite as magnificent as the Californian giants, only not so large in circumference. The shedding of their bark is a misstatement. What the tree does do is this: It sheds the old, dry, broken, and coarse bark, but the new one is sound and solid, and is not shed. The new bark is clean and very smooth, no branches growing for 100 feet or more.

### Love and Ambition.

We pass from love to ambition, but we seldom return from ambition to love.—La Rochefoucauld.

The Onondaga salt springs in New York were worked by the Indians.

## POSTMASTER WITH GREAT CIRCUS TOO

Jules Tournour, postmaster with Ringling Brothers and Barnum & Bailey Combined Shows is, in the eyes of many, "a man without a country." Spaniards think him Spanish; Russians assume he must have once been a subject of the czar; Italians admire the manner in which he speaks their language; Frenchmen take him for a countryman and it would occur to an Englishman to question his nationality.

As a matter of fact Tournour has long claimed Michigan as his state. Yet when his history is considered it is not surprising that those who meet him are mistaken as to his nativity and citizenship. Tournour was born in Italy of French and Spanish parents. His father and mother were performers and were traveling with a European caravan when he joined them. The first twenty years of his life were spent in touring European countries with his parents. In this way he learned all languages and, after a fashion, came to be of all countries. The young man then came to America to engage in pantomime but, after two seasons, returned to Europe. Finally he came here to remain. For almost thirty years Tournour was postmaster with Ringling Brothers, and now that the biggest features of the two famous circuses have been combined he has charge of more mail than ever. Yet Tournour has time for his art. This season he plays a leading role in the great panoramic pageant which will introduce the wonders of the mammoth program that will be presented here next Tuesday.

Probably no other post-office in America is daily visited by such a crowd of cosmopolitans as that over which Tournour presides. Hundreds upon hundreds of people go there for their mail. Many are foreigners and it is his ability to speak all languages that renders Tournour peculiarly fitted for the position of postmaster and makes him certain of re-appointment.

## Ending War is Brotherhood Plan

(International News Service)  
WASHINGTON, Oct. 8.—Ending war and industrial strife by the application of the golden rule is the aim of a conference which will open here tomorrow with delegates present from 25 nations.  
It will be the second meeting of the World Brotherhood, an organization with a membership of 690,000, which was begun after the war by prominent laymen of Great Britain. Frank Morrison, secretary of the American Federation of Labor and William Jennings Bryan will be among the speakers.

**Make the Most of Life.**  
"But, when you come right down to it, why should anyone want to live to be one hundred or even ninety? A man who was said to be one hundred and eight years old attended one of the Billy Sunday meetings here, and everyone who saw him pitied him. He was a wrinkled shadow of a man who lived beyond his time.  
The chief end of life, says the Kansas City Star, should not be so much to live to be eighty or ninety years old as to get the most out of the years that he does live, and the only way to do that is to live rightly, which means sanely, temperately, usefully, with due regard to the rights and feelings of others. Living that way you may not exist for a great span of years, but you will have the satisfaction of knowing that you made the most of the years that were allotted you."

**Male Angels.**  
"Ever think of this," he went on without looking up, "that all the angels and saints mentioned in the Scriptures are referred to as he's?"  
"That's because the Scriptures were all written by men—the ballots they cast in advance for their own immortality. The prejudices of your sex have laid a sort of spiritual impropriety upon us in the next world," I retorted sharply.  
"I don't know," he laughed; "we men may be needed so much forever in this world that the Lord can't spare you just to sing soprano in heaven."  
From "A Circuit Rider's Widow," by Corra Harris in the Saturday Evening Post.

**Mammoth Cooking Kettle.**  
Recently a well-known brass and copper company in Indianapolis took pride in displaying on the streets of that city a huge copper kettle it had made, which has a capacity of approximately 2,000 gallons—big enough to hold 12 men without crowding them, as a photograph in the Popular Mechanics Magazine testifies. Five men worked six weeks to complete it.  
This is without doubt one of the largest cooking kettles in the United States. It will be used by a fruit company in New Jersey in boiling orange and lemon peel.

**Pigmy Race.**  
The natives of the Andaman Islands, bay of Bengal, average three feet eleven inches in height and weigh under seventy pounds.

## LOOK ON WORRY AS ENEMY Will Wear Out Brains and Nerves Quicker Than Can Any Process of Mental Action.

Remember that worry is the arch enemy of the nerve force. Remember that some of our great men have worked out the greatest problems of earth, and have yet retained a nervous poise that has been proof against the strains which they have borne. Remember that brains and nerves are not worn out through intensity of mental action. They are worn out, rather, because we keep them in action when they should be resting, writes Arthur C. Craig in the Osteopathic magazine. If we concentrate the mind on its tasks and, when they are laid aside, can control it to the extent that we can relax and bring the mind back to lighter things; if we can allow it to throw off its burdens and forget them for a time, and then see that no strain is too long continued, we need not fear mental overwork.

Instead of this kind of care we often deprive ourselves of the sleep needed to rebuild the nervous system; we poison the nerves by the things that we take into the body as food; we whip them into increased activity with stimulants. In short, we impose upon the nervous system burdens which it is not reasonable to suppose this system would be able to bear, and then when things go wrong we grumble and throw the blame on the great Architect of our being. Instead, let us set about to remodel and rebuild according to the laws which he has given us, and thereby achieve that which we should possess, a poised, balanced and healthy life.

## FELT LIKE JOINING IN LAUGH

James J. Hill, in His First Dress Suit,  
Could Understand Why Colored  
Man Chuckled.

For the trappings of society James J. Hill had little use, the Wall Street Journal states. He abominated the stiffness and formality of social functions. An old friend, recalling Mr. Hill's dislike for formal society, told of how upon one occasion when the Hill family gave an evening reception at St. Paul Mr. Hill was persuaded, only with the utmost difficulty, to don a dress suit.

For the occasion an old colored man from the Great Northern offices was to act at the door of the Hill residence. He stood at his post, awaiting the guests, when Mr. Hill attired in his evening clothes came down stairs. The attendant, who had been with Mr. Hill for years, when he saw his "boss" in the unaccustomed attire, chuckled aloud. Mr. Hill caught the sound, and looked up. The retainer turned in dismay. Mr. Hill strode up to him, caught him by the shoulders, and said: "What are you laughing at?"  
"Deed, I wasn't laughing," gasped the servant.

"Yes you were," admonished Mr. Hill. "You were laughing at me, and I don't blame you a darn bit."

**Horse Realized Danger.**  
An adventure in British South Africa shows the instinctive foresight and caution of a horse. A number of Uitenhagers went out for a two-days' hunt. The party was of ten guns and after excellent sport their bag totaled 18 buck. One of the hunters, returning to Addo at dusk had an adventure with an elephant. He was on horseback and was riding quickly along the road, when his horse came to an abrupt stand then suddenly veered round and bolted. A boy who was also mounted, argued that it was probably an ox in the road, and went off in front. On reaching the spot they were confronted by a big bull elephant, whose attitude was of such a fighting nature that they decided to return and complete their journey to Addo by another road.

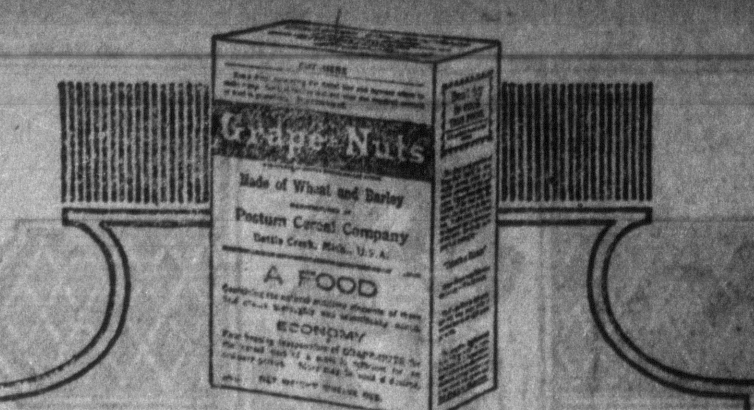

**Eight-Mile Fence Patrol.**  
To prevent wolves, coyotes and other wild animals from entering a pasture where experiments in sheep-raising were being conducted, hunters employed by the forest service were required to patrol eight miles of fence twice a day in the Wallows national forest, in Oregon.

Two thousand five hundred and sixty acres of choice land were inclosed to conduct experiments with a view to ascertaining whether it was more advantageous to care for sheep in pastures than to herd them on the open range. A coyote-proof fence eight miles in length inclosed the pasture. It was made of woven wire about four feet high with two strands of barbed wire across the top.—Popular Science Monthly.

**Hermit Had Large Fortune.**  
A hermit in Cumberland, England, has just passed away leaving real and personal estate to the value of \$650,000. For 30 years he was never seen outside his grounds. He had a strong aversion to women, especially the modern-dressed lady. At the mention of the word, "politics," he invariably lost his temper. A capital trait in the management of his estate was paying all accounts in gold or silver. He never used checks.

**To Continue Work Despite War.**  
The Italian government has placed the zoological station at Naples under the control of a royal commission, of which F. Sav. Monticelli, professor of zoology in the University of Naples, is president. The commission announces that it will supply means to continue the work of the station, and engagements entered into in regard to tables for research.

**How Bridal Veil Originated.**  
The bridal veil is said to have originated in the ancient custom of performing the marriage ceremony under a square piece of cloth, held over the bride couple to conceal the blushes of the bride. At the marriage of a widow it was not used.

## Every Granule Full of Health and every granule is eatable, for there is no waste to Grape-Nuts

Children love its sweet  
nut-like flavor, it is ready-

## STREET CARS STILL REMAIN IN BARN

Street car service was still suspended here today, the cars remaining in the barn. Today marked the fourth day since the employees walked out, declaring they would await the company's willingness to arbitrate their differences, "in accordance with contract."

No effort has been made to operate the cars up to early this afternoon, although a statement issued by the company said schedules would be restored as soon as possible.

### Circassian Walnut

Circassian walnut is sold by the pound or the ton, and not by the foot. As early as 116 B. C. it was introduced into Italy from Persia. The logs are sold from the forest with their bark on. Only the heart of the wood is used, and it is the crooked, irregular logs that possess the best figured wood.

## A PROCLAMATION

### STATE OF ALABAMA EXECUTIVE DEPARTMENT.

WHEREAS, The Legislature of Alabama, at its regular session in the year 1919, ordered an election by the qualified electors of the State of Alabama upon a certain proposed amendment to the Constitution of Alabama, which is herein set forth, to be held on the proclamation of the Governor, and,

WHEREAS, Notice of such election, together with the proposed amendment is required by law to be given by proclamation of the Governor;

NOW, THEREFORE, I, Thomas B. Kilby, Governor of the State of Alabama, do hereby give notice, direct and proclaim that at the general election in November, 1920, an election will be held for the vote of the qualified electors of the State of Alabama, in the manner, form and places required by law, upon the following amendment to the Constitution of Alabama, viz: The Legislature shall have the power to authorize, the counties of Alabama which have or which shall have taxable property in such counties of one hundred millions of dollars annually, or more, according to the assessments by such counties for the year 1913, A. D., or according to any assessment hereafter made, to acquire, construct, purchase, own, lease, maintain, use, control and operate highways, railroads, by any kind of motive power conveyance or appliance; freight stations; passenger stations; wharves; piers; docks; warehouses; grain elevators; storage tanks; team trucks and all other facilities and structures appurtenant thereto, for the purpose of receiving, carrying, delivering, reducing in bulk, storing or preparing for shipment of goods, wares and merchandise or passengers over such railroads or in or through such terminal facilities, in aid of intrastate, interstate or foreign commerce; including the dredging, on both banks of the approaches to the water terminals.

Section 2. The Legislature shall have the power to authorize and empower such counties to issue bonds, lend their credit, grant public money, or other thing of value in aid of the internal improvement as described in Section 1 hereof.

Section 3. The Legislature shall have the power to authorize such counties to levy and collect a special tax not exceeding twenty cents on each one hundred dollars of taxable property in such counties, in addition to the maximum rate of taxation prescribed in the Constitution of Alabama. The funds thus raised are specifically reserved to be applied only to the creation and support of the internal improvement herein and hereby authorized.

Section 4. That all such counties shall have the right, power and authority to acquire, construct, purchase, own, lease, maintain, use, control and operate highways, railroads—by any kind of motive power conveyance or appliance; freight stations; passenger stations; wharves; piers; docks; warehouses; grain elevators; storage tanks; team trucks, and all other facilities and structures appurtenant thereto, for the purpose of receiving, carrying, delivering, reducing in bulk, storing or preparing for shipment of goods, wares and merchandise and passengers over such railroads or in or through such terminal facilities, within, across or through its own territory, or the territory of adjacent counties.

Section 5. That any enactments of the Legislature of Alabama contingent upon the ratification of this amendment to the Constitution of Alabama by the qualified voters of the State, shall be validated and become a force and effect immediately this amendment is so ratified.

Section 6. All such counties of Alabama are hereby authorized and empowered to increase the limit of county indebtedness from 3% to 4% per cent of such taxable property.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Great Seal of the State to be affixed at the Capitol in the City of Montgomery, on this 27th day of August, One Thousand Nine Hundred and Twenty.

THOS. B. KILBY,  
Governor.  
WM. P. COBB,  
Secretary of State.

## REALLY DROVE OUT DEVILS

How Christianity Expelled Evil Spirits of Ignorance and Disease From Filthy Korean City.

In Pyeng Wang, a city surrounded by a river and resembling a boat in shape, it was believed that if anyone should venture to dig a well the water would rush in, sinking the boat and drowning all the city's inhabitants.

Needless to say, no wells were dug! The streams washed the filth of the city down into the river. Then the watermen filled their buckets at the river and sold "drinking-water" throughout the city.

Constantly recurring epidemics were the result. But the people did not blame the dirt. They blamed the devils.

It was the duty of every Korean doctor to know the 300 places where the human body could be pierced with a red-hot needle without causing death. The needles were from three to twelve inches in length, and the doctor was supposed to know how deep they should be thrust. The purpose of the probing was to let out the devils which caused the disease.

When Christianity came to Korea, it brought hygiene and medicine along with it. A hospital or dispensary was not known in Korea until founded by a Christian missionary.

The Japanese government is now splendidly following with the establishment of hospitals and medical schools.

Fine waterworks systems have been installed, and the sort of water that gushes from this hydrant in Pyeng Yang is stated to have reduced the death rate by 70 per cent.

The old boat city of Pyeng Yang is now underlaid with a network of sewers.

## TO STUDY AMERICAN METHOD

Daughters of Danish Merchant Prince Will Serve for a Time Behind Counter in Store.

"Then I see to him— And he sees to me—"

Such heart-to-heart talks may be spared you some fine day when you go into a big department store to ask for three spools of white thread No. 60, and a paper of embroidery needles, assorted. You may even be favored with the full-face view of the shopgirl serving you, instead of the accustomed profile. Yes, and perhaps you'll be talked to in the best of Parisian French, instead of just being called "madame."

Two wealthy girls of Denmark, Miss Else and Miss Inger Illum, daughters of a merchant prince of Copenhagen, have come to America to view life from the other side of the counter and learn the American methods of business.

"Whatever other shopgirls do we wish to do," Miss Else said. "We want to learn the ways of your shops from the ground up, as you Americans would say."

"I am especially interested in the business end of the shops, and my sister in the dressmaking. But we are going to serve behind the counter, to wrap bundles or make change, or do just whatever else may fall to us in the day's work of a shopgirl."—New York Tribune.

### Dramatic Recovery of Speech.

An amazing case of recovered speech has occurred at the Military hospital, Nottingham, England. Several days ago a sergeant named Harvey, who, though a native of London, lived in Canada for some years, went to a local picture house to take in a picture of the battle of the Somme. At that time, as a result of having been shocked by a mine in France some weeks before, his organs of speech were paralyzed. On returning to the hospital he went to bed and dreamt the whole representation over again, including a most realistic mine explosion, and when he awoke he had partially recovered the use of his paralyzed organs. Later, when interviewed, it was found that he was able to talk quite clearly, and expressed great delight at his recovery, which caused peculiar satisfaction to the medical staff as well as to nurses and comrades in arms. Though numerous cases of dumbness through mine explosions and shell shocks have been admitted to this hospital, this is the first time that a recovery has been made under circumstances so dramatic.

### Poverty and Disease.

Investigations into the working and living conditions of the 30,000,000 wage-earners of the United States have revealed many things which are deplorable, especially among the unskilled low-paid group of workers. In spite of recent improvement in many industrial establishments the fight against insanitary conditions is still an uphill one. Recent sanitary surveys show that the elimination of health hazards from industry is not a thing to be expected in the near future.

Of greater importance is the inability of a considerable proportion of the wage-earners of the country to maintain a healthful standard of living on the wages received. In all investigations the vicious circle of poverty as cause and effect of disease is found.

### Telephone on the Rifle Range.

On the rifle range of the Georgia state militia, at Augusta, scoring is done by a telephone system. A telephone in the firing pit is operated from a central station box on the firing line; so is an iron buzzer-box in front of each target. When the buzzer sounds, the target is pulled down, the shot located and another target set up.—Popular Science Monthly.

## Hartselle News

There is much cotton on the streets today and farmers are ginning and taking most of the staple back home. There is not much disposition to sell at the present prices. The gins are running at about capacity. There has been no threats against gin owners here, and it is not thought matters will take that turn here.

Falkville camp W. O. W. will unveil a monument to the late Dan Garner at Herring grave yard next Sunday, October 10th at 2 p. m. The camp from here will attend in a body, and many friends of the deceased will also attend.

The new city officers elected at the recent municipal election at this place are now in charge, and some changes have been made in the police officers. Tom M. Watson has been appointed by the board as Chief of Police in the place of F. J. Perchy who has served for two or three years in this capacity. There was no change in the night officer, Less Williams being retained in this capacity.

The Ladies Auxiliary of the Presbyterian church will have a market Saturday the 10th, inst., in the building adjoining the First National Bank. A tempting menu will be served, and an invitation is extended to the public to attend.

Endowment Fund day will be observed at the Presbyterian church next Sunday at 11 o'clock a. m. A special program has been prepared, and special music will be a feature of the occasion.

Mrs. D. W. Day was hostess to the Ladies Auxiliary of the Presbyterian church last Monday afternoon at her home on South Highlands. An interesting discussion of the problems affecting the church in Korea were had. Following this a business meeting was held. A social hour followed, in which refreshments were served.

Work on the new store building of G. W. Wiley commenced this week on West Main street. The building will be brick, and when completed will be occupied by the owner who will open up a general stock of merchandise.

Miss Ella Will Nelson of Decatur has announced that she will be here each Tuesday at the Farmer's Union Store to attend to matters affecting the Red Cross Society in this section.

Several grandparents have announced that they will be forced to take the grand-children to see Ringling Bros., show at Decatur on the 12th inst. This is an annual standing announcement among these genial good natured fellows.

## Bank Vice-President

Tells How Ziron Iron Tonic Helped His Daughter After Operation for Appendicitis.

AFTER any serious illness, the first thing you notice when you begin to get around is your lack of strength and energy—a tired, weak feeling.

The sooner you get your strength back the better. The thing to do is to eat plenty of good, nourishing food, get all the fresh air you can, exercise conservatively, and take Ziron Iron Tonic three times a day.

Your doctor will tell you this is sound advice, and urge you to follow it.

Read this letter from Mr. J. B. Kelly, vice-president of the First National Bank, Graceville, Fla.: "My daughter had been in bad health since last April. She has been taking Ziron for two weeks. Her appetite is better than it has been. Her nerves are better, and she says she feels better. I know that Ziron is good for weak and feeble people."

Ziron is a scientific, reconstructive tonic, prepared from valuable strengthening ingredients, for weak people with thin blood. Druggists sell Ziron on a money-back guarantee. Try it.

## "Delicious Apple Pie"

Pie, brim full of juice and covered with a crust so flaky, so delicate that it seems hardly capable of holding so much goodness within bounds!

Such pie is most often found in the many homes where Valier's Dainty Flour is used. For Dainty Flour retains all the unusual baking qualities of the carefully selected soft winter wheat from which it is milled so slowly. It is well fitted to help sustain your reputation for setting a fine table.

To be sure, Dainty Flour costs a few cents more, but it's well worth the difference. Think of the satisfaction of better baking! And then, Dainty requires less shortening.

### Day of the Penny Gone.

Coralie had often gone on numerous errands for me, charging a penny for each trip. I had not had so many errands for her of late and the tiny miss does not earn so many pennies. Today I asked her to go uptown for me, and in a hesitating manner she informed me, "I will have to charge you 1 cent instead of 1 penny. I can't buy anything little girls want with a penny."—Exchange.

The Sarcen war in Spain and France lasted 782 years.

## QUIET PARISH WAS 5 YEARS OF HELL

THAT'S HOW PREACHER IN BOOK DESCRIBES STAY IN ENGLISH VILLAGE

(International News Service) LONDON, Oct. 8.—"Five Years of Hell in a Country Parish," is the selective title under which the Rev. Edward E. Synnott, M. A., rector of Rusper, recounts his experiences.

The book, needless to say, is attracting a bit of attention.

In his story of a back-biting community, Synnott says his crimes included:

"I sang too loudly.

"Did not cross myself.

"Raced through the services like a man about to catch a train.

"Let children fall when I baptized them.

"Put the wedding ring on a lady's thumb.

"Married the wrong couple."

Much Idle Gossip.

"There are no Helens of Troy in Rusper. Some there are who, denied beauty of face and form, made themselves still more repellent by their thoughts, words and deeds. Long hours spent in idle and venomous gossip seem to leave marks on their plain and vacant faces."

Even seven centuries ago, he declares, Rusper was notorious for gossip.

"I came to Rusper with 6,000 pounds in my pocket," he adds. "At the end of five years I am worth about sixpence. Much had to be squandered on legal expenses to meet the frivolous charges which any church member can, and some church members did, bring against me."

Poached His Rabbits

And again:

"Sometimes when I noticed that my morning congregation was smaller than usual and missing I could not help thinking that I know where they were gone. They were busy elsewhere—on my farm, poaching my rabbits."

And after all these and many more pen pictures of his village friends, he expects to continue at Rusper. He closes his book with:

"With renewed courage and unshaken faith, I bring these chapters to an end, and in my quiet parish of Rusper prepare to enter upon a period of which, a few years hence, I may be able to write under the title 'Five Years of Heaven in a Country Parish.'"

The raven figures in many superstitions and is invariably considered a bird of ill omen, and its unexpected appearance a sign of death or disaster. It was dedicated by the Romans to Apollo, and there is a strange Greek legend telling how the bird was changed from white to black.

California Tungsten.

Tungsten deposits in California, which were discovered in 1913, but remained practically unknown until last spring, have recently yielded considerable quantities of this mineral under the stimulus of an increased demand. A representative of the United States geological survey, who has visited the place, finds that the ore bodies have some remarkable characteristics. This spring a tungsten company began work. Trails and roads were built, a mill was erected and electric power brought in, and since 300 tons of ore have been crushed daily. The ore bodies, it is found by the geological survey, are very unusual in their formation. The general country rock is granite, among which are scattered deposits of limestone, which became mineralized at the time when the granite cooled from its molten condition.

Easy Chair for Painters.

The simple skill of the sailor evolved a seat in which he could paint the sides of his ship or repair his top-most rigging. It was merely a notched board set into a looped rope-end—a child's swing, except that it depended from one line instead of two.

It was an uncomfortable, one-handed affair at best; yet it was, and is still, used by steepelacks, painters and such like, with small variations, says the Popular Science Monthly. The inventive mind had passed it by until recently, when an employee of a New York electric company transformed the old swing into an aerial easy chair.

## POLITICS FOR MRS. HARDING, BUT "HOME DUTIES" FOR MRS. COX

Wife of Republican Candidate for President Aided During Front Porch Campaign—Mrs. Cox Has Home and Baby to Care For.

(International News Service) COLUMBUS, Oct. 8.—Mrs. Warren G. Harding, wife of the Republican Presidential nominee, likes politics and is daily doing some little task at Marion to help her husband's campaign.

Mrs. James M. Cox, wife of the Democratic Presidential nominee, admits she knows little of politics, and is staying at home and gardening during her husband's strenuous swing around the political circuit. Besides, she has a baby to attend to.

In a nutshell that tells the difference between the two women, one of whom is to be first lady of the land. Even Mrs. Cox probably sympathizes with Mrs. Harding in her self-

chosen though scarcely avoidable campaign work. For no good housewife likes to have mud tracked in on a clean porch. The porch campaign at Marion simply ruined the Harding front lawn, and it had to be covered with crushed stone. But several hundred political pilgrims marching in daily from the muddy confines of rural Ohio and adjacent States and all crowding around to plant their feet on the famous Harding front porch, gives you some idea of the work that faced Mrs. Harding. The porch is tiled, so several times a day Mrs. Harding had a servant flush away the mud with the very same garden hose that used to quench the thirst of the tulips and geraniums on the aforementioned ruined lawn.

Governor Cox's campaign away from home saves Mrs. Cox a lot of front porch scrubbing. Mrs. Cox says she has plenty to do to take care of the baby, Ann, and the rest of the time she puts in at gardening in the fifteen-acre vegetable and flower plot at Trail's End, near Dayton. She pulls weeds, trims vines and does whatever is necessary to an ambitious vegetable.

Mrs. Cox is a great outdoor sports-woman. She rides horses, plays golf, swims, hunts, yachts and likes motoring.

Mrs. Harding is a born politician herself. She can handle all types of people with ease and unaffectedness. She made the farmer who drove up in front of the Harding home, dismount and bashfully yet wanted a glimpse of the Republican nominee, as much at ease as though he were milking his own cows in the barn lot. Mrs. Harding says she is getting a lot of fun and excitement out of the campaign.

The Republican nominee's wife also is a good horsewoman and loves the outdoors.

### Apple Fruit of Many Uses.

There is no fruit that lends itself to so many varied uses as the apple. It may be evaporated or dried and kept an indefinite period and then cooked in much the same way as fresh fruit. There are also many by-products. The juice is pressed and used according to its age and stages of fermentation as sweet cider, hard cider or vinegar. The whole apple and even the parings from the evaporators are used for apple butter, jellies, jams, etc., and in recent years the culls and cores from the evaporators have been dried and sold for \$4 a ton for export to Europe and returned to us later in the form of high priced "imported wines."

### Foodstuffs Instead of Cotton.

Planters in the fertile Laguna district near Torreón, Mexico, are substituting war crops for cotton this year. Having learned that the demand for corn, wheat and other staple foodstuffs would be heavy and prices correspondingly high, the Mexican hacienda owners have plowed up their cotton lands in this famous cotton-growing district of central Mexico and have planted food crops.

## A PROCLAMATION

STATE OF ALABAMA  
EXECUTIVE DEPARTMENT.

WHEREAS, The Legislature of Alabama, at its regular session in the year 1919, ordered an election by the qualified electors of the State of Alabama, upon a certain proposed amendment to the Constitution of Alabama, which is herein set forth, to be held at the general election in November, 1920; and

WHEREAS, Notice of such election together with the proposed amendment is required by law to be given by proclamation of the Governor;

NOW, THEREFORE, I, Thomas E. Kilby, Governor of the State of Alabama, do hereby give notice, direct and proclaim that at the general election in November, 1920, an election will be held for the vote of the qualified electors of the State of Alabama, in the manner, form and places required by law, upon the following amendment to the Constitution of Alabama, viz:

"Section 1. The several counties in the State shall have power to levy and collect a special county road tax not exceeding fifty cents on each one hundred dollars worth of taxable property in such counties in addition to that now authorized or that may hereafter be authorized for public road purposes; provided, that of such tax, the time it is to continue and the purpose thereof shall have been first submitted to the vote of the qualified electors of the county, and voted for by a majority of those voting at such election.

"Section 2. The funds arising from the special county road and bridge tax levied and collected by any county shall be apportioned and expended by the boards of county commissioners or boards of revenue of such county in the following manner, to wit: Fifty per cent of said taxes levied and collected shall be used for maintenance of roads and bridges, and the remaining part shall be used in constructing roads, bridges, culverts, etc., as such boards of revenue or courts of county commissioners may direct.

"Section 21. Twenty-five per centum of all moneys derived from property lying within municipalities and arising from the tax proposed herein shall be paid to such municipality and shall by it, be expended for upkeep of its streets.

"Section 3. That the court of county commissioners, boards of revenue or other governing body of such county may, or upon written petition of ten per centum of the qualified voters of any county shall call and submit said election provided for and authorized by sections one and two hereof to the qualified electors of such county either at the same time of the general election, or at a special election called for the purpose; provided, that said election shall be called and held in accordance with the law now or that may hereafter be enacted governing county bond elections, and in conformity with the general election laws of the State."

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Great Seal of the State to be affixed at the Capitol in the City of Montgomery, on this 27th day of August, One Thousand Nine Hundred and Twenty.

THOMAS E. KILBY,  
Governor.  
By the Governor:  
WM. P. COBB,  
Secretary of State.

YOU certainly want to save money, and you would like to have better bakings.

Then use Calumet. It's the biggest thing you can do to improve the quality of your bakings—and lower baking costs.

Calumet is made in the largest, most sanitary Baking Powder Factories in the World. No Baking Powder is made under better conditions—none can be better in quality.

It contains only such ingredients as have been officially endorsed by the U. S. Pure Food Authorities. An absolute guarantee that it is pure.

RAISES THE QUALITY—LOWERS THE COST  
OF ALL BAKINGS

# CALUMET BAKING POWDER

"BEST BY TEST"

It received highest Awards, World's Pure Food Exposition, Chicago—Paris Exposition, Paris, France—positive proof of its superior merit.

It is used by more housewives, domestic scientists and chefs than any other brand. That would not be the case, if it were possible to secure a higher quality leavener.

It is sold at a moderate price. All you have to do is to compare costs to determine how much you can save by buying Calumet.

Gluten is the muscle building part of flour which is of great importance. To be sure you get it in your bakings use plain flour and good baking powder, (not self-rising flour).

### Calumet Cream Cake Recipe

3 cups pastry flour, 3 level teaspoons Calumet Baking Powder, 1/2 cup butter, 1 1/4 cups granulated sugar, Yolks of 3 eggs, 3/4 cup cold water, Whites of 3 eggs, 1 teaspoon orange extract. Then mix in the regular way.

## WILSON DECLARES ARMISTICE SUNDAY

(International News Service.)  
WASHINGTON, Oct. 8.—President Wilson today issued a proclamation declaring Sunday, November 14, as "Armistice Sunday" and asked that services be held throughout the nation on that date "as a special note to remembrance for the services and sacrifices for those who died for America in the world war."

With the proclamation the President issued an executive order declaring that the United States flag be displayed at half mast at military posts, naval buildings, vessels and buildings of the United States on that date.

## Beloved Woman Dies on Wednesday

Mrs. M. E. Benich died at the home of her son, G. W. Benich, Albany, R. 2, on Wednesday, seven miles out on the Somerville pike, and is mourned by a large circle of friends and relatives. Interment will probably take place at the city cemetery on Saturday afternoon at 2 o'clock, exact hour dependent upon arrival of relatives from a distance. She is survived by the following sons and daughters, George W. J. C. and A. W. Benich, of Albany, R. 2, and A. B. Benich, of Belle Green, Ala., Mrs. Pennsylvania Black, Belle Green, Ala., Mrs. Pensicola Byford and Mrs. E. Cowan, Albany, Ala., R. 2, and Mrs. Iretta Mitchell of Russellville, Ala.

The mayor of Vladivostok is a former Pennsylvania coal miner.  
Rye comes nearer to wheat in bread making qualities than any other grain.

## GROWING DEAF WITH HEAD NOISES? TRY THIS

If you are growing hard of hearing and fear Catarrhal Deafness or if you have roaring, rumbling, noises in your ears go to your druggist and get 1 ounce of Parmit (doubt strength), and add to it 1-4 pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who is threatened with Catarrhal Deafness or who has head noises should give this prescription a trial.—Adv.

## A PROCLAMATION

STATE OF ALABAMA  
EXECUTIVE DEPARTMENT.

WHEREAS, The Legislature of Alabama, at its regular session in the year 1919, ordered an election by the qualified electors of the State of Alabama upon a certain proposed amendment to the Constitution of Alabama, which is herein set forth, to be held at the general election in November, 1920; and

WHEREAS, Notice of such election together with the proposed amendment is required by law to be given by proclamation of the Governor;

NOW, THEREFORE, I, Thomas E. Kilby, Governor of the State of Alabama, do hereby give notice, direct and proclaim that at the general election in November, 1920, an election will be held for the vote of the qualified electors of the State of Alabama, in the manner, form and places required by law, upon the following amendment to the Constitution of Alabama, viz:

"Section 93. The State shall not engage in works of internal improvement nor lend money or its credit in aid of such, nor shall the State be interested in any private or corporate enterprises or lend money or its credit to any individual association or corporation, provided that the State may under appropriate laws cause the net proceeds from the convict fund to be applied to the construction, repair and maintenance of public roads in the State, and the legislature may also make additional appropriations for that purpose; and, provided further, that the foregoing prohibitions shall not apply to the promotion, development or operation of harbors or seaports within the State or its jurisdiction, provided, further, that any such work or improvements shall always be and remain under the management and control of the State through its State Harbor Commission or other governing agency and provided further that the adoption of this amendment shall not affect any other amendment to the Constitution which may be adopted pursuant to any resolution of this session of the Legislature."

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Great Seal of the State to be affixed at the Capitol in the City of Montgomery, on this the 27th day of August, One Thousand Nine Hundred and Twenty.

THOS. E. KILBY,  
Governor.  
(Seal)  
By the Governor:  
WM. P. COBB,  
Secretary of State.

## Airplanes Aid in Search for Two Escaped Convicts

(International News Service.)  
LEAVENWORTH, Kan., Oct. 8.—Two army airplanes were used today in the search for two military prisoners who escaped from a guard at Fort Leavenworth. The convicts "found" an automatic revolver while working in a field, held up the guard and escaped in an automobile brought to the field by one of the convict's wife.

## Illuminating Irritation.

Ida incidentally indicates interest in fees, Irving, impressionable, infatuated, indolently invests. Ida's indulgence in fees inordinate, insatiable. Irving, impetuous, inaptly introduces inexpensive innovations. Ida, instantly irate, in impatient irritation, indignantly, impeaches Irving's iterated infatuation, insinuating indifference, inhumanity. Ida's infantile, inelegant ineffectiveness illuminates Irving's innermost intelligence, inhibiting infatuation, intercepting intentions.—Youth's Companion.

## Democrats Got \$5,000 He States

(International News Service.)  
DAYTON, O., Oct. 8.—That the proceeds of the \$5,000 note concerned in the senatorial investigation of campaign funds of Governor James M. Cox and made by the Dayton Metal Products company, was given to Clarence Greer, chairman of the Democratic county committee, was the testimony of Clarence Kiefer, cashier of the City National bank here today.

## Tin Miners Have Privileges.

The men who work in the Cornish mines are a class by themselves, and all their differences are adjusted by the stannary courts, as they are called from the Latin word stannum, meaning tin. These curious courts have existed in their present form since the middle of the thirteenth century, and, in a simpler form, much earlier; and the miners claim to be free from all other jurisdiction, "except in matters affecting the land, life or limb."

A heavy snowfall was reported at New Orleans in 1852.

## Ponder and Ezell Lead Shooters

The gun club contest of yesterday afternoon showed the following result:

T. A. Bowles	25	14
Joe Bell	25	17
J. E. Wilder	25	17
J. W. Ezell	25	23
Roy Ponder	25	23
C. L. Saunders	25	18
Ed McDermot	25	18
W. A. Thompson	25	14
Neal Abel	25	22
H. W. Dwerbay	25	17
John Wilkinson	25	18

## Houston Reunion Comes to an End

(International News Service.)  
HOUSTON, Texas, Oct. 8.—With a grand parade of veterans, the Confederate Southern Memorial Association, the Sons of Veterans and official women and military companies and the final grand ball tonight, the United Confederate Veterans' four day reunion will be brought to a close. Despite the announcement that he would not run, General Vanzandt, of Fort Worth, was reelected commander in chief of the Confederate veterans.

For Age Computation.  
To compute the age and birth month of a person ask the person to think of his age, multiply by 10, add 25, multiply by 10, add the number of the month in which he was born, subtract 250. The first two numerals will be the person's age and the last two the month in which he was born.

## Austinville News

Lewis Bell has returned to school after visiting friends at Sheffield and attending the Tennessee Fair at Memphis.

Miss Vera Black, of Athens, entered the High School Department during the week.

Miss Zala Mae Cosby, of the third year High School class, is attending the confederate reunion in Houston as one of the maids of honor from Alabama.

The following pupils were visitors to the State fair in Birmingham: Gladys Beatty, Annie Howell, Estelle Sybert and Elsie Barnes.

At a recent election the Tutwiler Literary Society elected Zola Mae Cosby, president. Gladys Beatty was elected to a similar position in the young society. Each society evidently believes in both the theory and practice of Woman suffrage. A spirit of keen rivalry exists between the two societies and special programs will be given Friday afternoon.

The length of the world's railways in 1835 was 1600 miles.

Malady of Doubt.  
There are plenty of people who think that to doubt everything shows common sense and shrewdness, whereas it may indicate only a narrow-mindedness. But there is an uneasy doubting of one's self which, if not resisted, may become almost a disease. Often, though perfectly sure that we did lock the door, or deliver an injunction, or put a memorandum in our pocket, we nourish the doubt all day, or turn out our pocket and our way to work. One symptom of this malady is the hurried, worried search for a missing article in every place save where it usually is, and the astonishment at finding it there.

## Mrs. Jerre Clark Dies in Mass.

Many old friends here are shocked at the sad news of the death of Mrs. Jerre Clark, which occurred at Springfield, Mass., on Sunday. She had been in declining health for sometime, but her family and friends were not prepared for the sudden end, which was caused by heart failure.

Mrs. Clark will be sincerely mourned by many old friends here, when she was greatly beloved for her womanly virtues. Active in church and club work her acquaintance was wide and her services of great value. Funeral and interment took place at Springfield, Mass. Beside her husband, deceased is survived by her sons, Raymond, Howard, Carroll and a daughter, Miss Ione Clark.

The Jews dated the beginning of the sacred year in March.

## At Death's Door

"I was talking with my neighbor Mr. Webb, the other day, regarding the great trouble his stomach had given him. He said he suffered 7 or 8 years, and had been almost at death's door a number of times from acute indigestion and bloating of gas, which seemed to shut off his heart action. He said he wouldn't have lived much longer if he hadn't taken Mayr's Wonderful Remedy when he did, which made a well man of him." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.—S. M. Thompson, Albany, Ala. and Owl Drug Co., Decatur, Ala.—Adv.

## POST TOASTIES

for breakfast is like a hard-boiled egg—you simply can't beat it

—says Bobby

To abort a cold and prevent complications, take

Medicinal virtues retained and improved. Sold only in sealed packages. Price 35c.

With Ringling Bros & Barnum and Bailey's Circus here Tuesday.

# CHATTANOOGA PEOPLE TESTIFY TO WONDERFUL MERITS OF SYSTONE SAVED LIFE AND HUNDREDS OF DOLLARS

Systone is a Powerful System Strengthenner. Makes You Strong and Healthy

"Mrs. Eliza Gomas of Chattanooga, says Systone saved her husband's life. Read her testimonial:

"I want to thank you for the good Systone did my husband. He was down with the Flu. The doctor said he would not give five cents for his life. I heard about Systone and got a bottle. He began to improve from the first dose, and in five days he went back to work."

Mrs. Bessie Patten of Chattanooga, spent hundreds of dollars, and says Systone gave her the first real cure. Here is what she wrote:

"I suffered with sour stomach, indigestion and biliousness. I had doctors for several years and spent hundreds of dollars without results. After taking a good course of Systone, I can now eat anything. It gave me my first real cure."

Systone is sold by Nungester Drug Co., and Albany Drug Co., on a money-back guarantee if you are not satisfied with the first bottle. ONE DOLLAR A BOTTLE

"BEST MEDICINE I EVER HAD IN MY HOME," says Mrs. Elizabeth Keeton, Chattanooga. She makes this statement:

"I want to say that your Systone is the best medicine I ever had in my home. I had three sick with Grippe in my house at one time. Systone brought them out. I will never be without it."

GAINED THIRTY POUNDS, says Mrs. L. E. Henry of Chattanooga.

"I continually had faint and dizzy spells, bad breath and headaches. I couldn't eat at all at nights. I tried Systone, and after a thorough course I can now eat anything at any time. I have gained thirty pounds and am as healthy as I could wish. My husband and I both take Systone."
